AQUA SERIES
Splash-proof Scales.

by **SMART** Equipments
The Smart Way to Weigh…

DESCRIPTION

The Aqua Series is a new generation, portable, splash-proof weighing scale with a choice of 6kg or 15kg capacities. With a stainless steel pan as standard, the compact Aqua Series digital splash-proof scale has adjustable levelling feet and built-in battery making it a highly portable scale and suitable for a wide range of weighing applications from food services, laboratory and industrial to warehouse, office and education. Its large pan size of 230mm x 197mm and weighing resolution of up to 30,000 divisions make this scale an ideal choice for precision weighing.

Ideal for parts counting, check weighing, silver weighing, master batch mixing, automotive paints mixing, GSM calculation, food weighing applications and related precision weighing applications.

FEATURES

- Capacities: 6kg and 15kg
- Up to 1/30,000 Display Resolution
- Stainless Steel weighing Pan
- Strong, Sturdy and Attractive ABS Body
- Auto Sleep Mode for Extra Battery Life
- Overload Protected Up to 250% of Capacity
- 30hrs Battery Backup at Full Charge
- Large 20mm Easy-to-Read Digits
- Percentage Weighing Mode
- Piece Counting Function

SPECIFICATIONS

- Repeatability: ±1 Division
- Linearity: ±0.002%
- Weighing Modes: weighing, percentage weighing, piece counting, weight accumulation, triple range function
- Weighing Units: gram, kg, carat
- Balance Weight: 5kg
- Calibration: Digital with External Mass
- Pan Size: 237mm x 197mm
- Display: 20mm Bright Red LED Display

- Communication Interface: Optional RS-232C/Printer Output
- Interface Output Mode: Continuous, Command, Printer
- Stabilisation: 2 Seconds
- Power: 9V AC Adaptor/Built-In Battery for Backup to 35 Hours
- Operating Temperature: 10°C to 35°C
- Dimensions: 336mm(W) x 462mm(D) x 105mm(H)
