

# G227

*Weighing and counting scale.*

by **Avery Weigh-Tronix**

## DESCRIPTION

Too much inventory is just cash tied up, whilst being too generous with 'giveaway' can be a profit drain. Fast, accurate counting is a means of ensuring tighter control of goods issued or received.

The G227 provides total control of your counting process, with many features to make your operation faster and error-free. It can also produce labels, with or without bar codes, for pack identification purposes or to control the movement of goods.

CAPACITY	STANDARD RESOLUTION	EXPANDABLE RESOLUTION
5kg	0.5g	0.02g
25kg	2g	0.1g
50kg	5g	0.2g

Pan Size: 5 kg: 203mm diameter  
25kg/50kg: 345mm x 340mm

## FEATURES

- Up to 250,000 Displayed Divisions**  
 The G227 offers high accuracy and performance with up to 250,000 displayed divisions and 1 : 2,000,000 internal resolution.
- Capacities**  
 Three standard capacities are available. Interface with up to two higher capacity platforms is also provided, to enable all your components, large or small, to be counted on one system.
- 1000 Components/Item Records**  
 Details of up to 1000 components are stored in the machine's database and can be downloaded to a PC or other G227s.
- Bar Code Labels**  
 The G227 will link to a variety of printers, for easy production of a range of label layouts - with or without bar codes.
- Bar Code Reader**  
 A bar code reader is available and can be powered from the scale, for fast, accurate data entry.
- Clear Operator Prompts**  
 The G227 is highly-user friendly thanks to the five "soft" keys, which provide clear prompting as the operator carries out different functions. A clear graphics display is designed to ensure the best possible visibility from any angle.
- Database Fields**  
 Database fields include part number, tare, description and totals of count and weight.
- Portable**  
 Internal or external battery options offer the flexibility of locating the G227 wherever you need to count.
