

F SERIES

Strong on Weighing. Advantages for Industry.

FEATURES

The F Series floor scale is fully portable, and has a low-profile making it ideal for freight logistics, production, warehousing and quality control. The F Series is available as mild steel, or optionally as a Grade 304 stainless steel or Grade 316 stainless steel.

The floor scale has been designed specifically with the food industry in mind, where harsh, wet environments are the norm. Its low-profile design minimises effort in operation when loading the platform. Installation is easy whether you decide to mount the platform above-ground or in a pit.

Floor plate is used as standard for all weighing surfaces. Four shear-beam loadcells are used, each with a threaded levelling leg with ball-and-cup suspension.

The F series is rated IP-65.

Model	Size (mm)	Maximum Capacity (kg)		
F-MS (Mild Steel)	Square Weighing Platform			
	1,000 x 1,000	1,000	2,000	3,000
	1,200 x 1,200	1,000	2,000	3,000
F-S4 (Grade 304 Stainless)	1,500 x 1,500	1,000	2,000	3,000
	Rectangular Weighing Platform			
F-S6 (Grade 316 Stainless)	1,000 x 1,200	1,000	2,000	3,000
	1,000 x 1,500	1,000	2,000	3,000
	800 x 2,000	1,000	2,000	3,000
	1,500 x 2,000	1,000	2,000	3,000
