

VD-310 INDICATOR

Versatile, low-cost digital weight indicator.

by **DIBAL**

FEATURES

The VD-310 is a light-weight digital weight indicator housed in a strong ABS plastic casing. The indicator is versatile with three modes: straight weighing, check-weighing (with visual comparator), and pieces counting.

The front face is easy to read and the display is highly visible with large 25.4mm high LED digits.

The indicator is supplied with a loadcell connector and a manual.

DATA

Loadcells	Up to 12 x 350Ω
Scale Inputs	Up to 2 Inputs (Second Scale Input Optional)
Divisions	Up to 100,000
Excitation Voltage	5Vdc
Zero Range	0 to 12.5mV
Input Range	0 to 15mV
Temperature Range	+10°C to +40°C
Housing	ABS Plastic

POWER

Power Source Required	12Vdc, 500mA
-----------------------	--------------

WEIGHING

Units	Kilograms, Pounds
Working Modes	Straight Weighing, Unit Counter, Checkweigher
Display	6-Digit LED, 25.4mm

COMMUNICATIONS

RS-232	Standard
Printer or Remote Display	Standard
